

Healthcare Needs a Trip to Mars: How AI is Changing Medicine

→ Healthcare Needs a Trip to Mars

Speaker:

Dr. Bertalan Meskó

What would healthcare look like on Mars? This keynote explores patient-centric design, digital health technologies, and the patient perspective—reimagining healthcare so patients become the point of care.

Dr. Bertalan Meskó

The Medical Futurist |
Director of The Medical
Futurist Institute, Hungary

→ Magnesium – The forgotten Electrolyte

Speaker:

Prof. Dr. Klaus Kisters

This lecture explores magnesium as the “forgotten electrolyte” in modern medicine. Learn why magnesium is often overlooked, the “modern magnesium gap,” and when supplementation may be clinically relevant.

Prof. Dr. Klaus Kisters
